

## PATIENT REVIEWS

*"Operation happened on Thursday 23 and I seem to be progressing much faster than when I had my right knee replaced last November.*

*The hospital team have been excellent as previously. Very attentive and great at finding the best solutions as each day progresses. The physio from Gosha and the daily interaction with Oscar is outstanding.*

*It all helps a little to have fabulous weather which is a complete contrast to the temperatures of November!*

*Hotel is a good standard, food and cleaning service is as good as before."*

Linda, Knee Replacement

*"Following-up on the great assistance you gave prior to our trip to Poland, we have nothing but praise for our treatment at the hospital.*

*First, Oscar was superb as our host. He has a wonderful, warm and calm personality. His English is perfect and he went out of his way to assist both of us. It was a pleasure to be with him.*

*Second the doctors and nurses at the hospital were first class both medically and on a personal level.*

*Finally, the physiotherapy treatment was again first class in assisting the start of the rehabilitation process.*

*I guess the best test is whether we would go back for other treatments or recommend it to others.*

*The answer is a resounding YES."*

David, Partial Knee Replacement
